

The modern solution for stylish practical
window coverings

Transform your home with Blind Screen®

Tired of rooms that are too hot in summer, too cold in winter, or never quite dark enough for a good night's sleep? Meet Blind Screen®—the all-in-one window and door blind that makes your home more comfortable, stylish, and energy-efficient.

Why choose Blind Screen®

Save Energy & Stay Comfortable

Blind Screen® is independently tested to reduce heat loss through your windows by up to 40%*, helping you stay warmer in winter and cooler in summer.

Total Blackout or Gentle Light

Choose from 100% blackout options for bedrooms and media rooms, or let natural light in with our sheer and honeycomb fabrics.**

Enjoy Privacy & Peace

Effortlessly adjust sunlight and privacy levels to create the perfect atmosphere at any time of day.

Keep Insects Out

Integrated insect screens let fresh air in while keeping bugs out—ideal for kitchens, bedrooms, patios, and doors

Easy to Clean & Made to Last

Stain and water-resistant materials make Blind Screen® a practical choice for busy homes and families.***

Designed for your home

Each Blind Screen® is custom-built to your window or door for a flawless fit and redefined finish. Blind Screen blends seamlessly with your decor and can be installed as a standalone feature or alongside your existing curtains and blinds.

Find the perfect model for your space

Blind Screen® 01

- Slimline design for windows and doors up to 1.5m wide.
- Choose single or dual fabric options.

Blind Screen® 02

- Versatile model for windows or doors up to 4m wide (or 6m with Breeze In™).
- Choose single or dual fabrics for maximum flexibility.

Blind Screen® 03

- Ideal for doors; low threshold design to prevent trips.
- Choose from a single or double track.

Personalise your Bind Screen®

Choose from a range of premium fabrics to suit your needs:

Light Seal™

Blackout honeycomb fabric for complete darkness and the highest energy efficiency—available in up to 5 colours, model dependent.

Scene Set™

Honeycomb fabric for privacy and gentle light, available in up to 5 colours, model dependent.

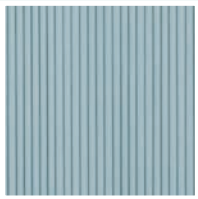

Breeze In™

Mesh insect screens in 3 colours, white, grey and black. Enjoy the breeze, without the bugs.

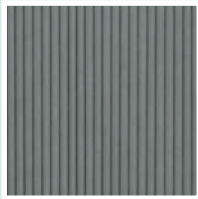

Sheer Intimacy™

Premium honeycomb voile for a soft, elegant finish, available in 2 colours, white and black.

Light Seal™ and Scene Set™ fabrics are available in a range of colours to match your style:

Light Grey

Dark Grey

Black

Beige

White
